The seminar focused on exploring gender sensitivity embedded in literature to foster understanding and promote equality. The speaker for the workshop was warmly welcomed to the session by Dr. K. Jhansi Rani, Principal, Head of the Departments, and students. Our respected principal addressed the gathering

Discussions highlighted how literature serves as a reflection of societal norms and challenges gender biases. Attendees examined the representation of gender in various genres, including fiction, poetry, and drama, and analysed how authors challenge or reinforce traditional gender norms through their narratives.

Moreover, the seminar emphasized the importance of critically engaging with literature to recognize and deconstruct harmful stereotypes and promote inclusivity. Participants explored how literary texts can serve as catalysts for discussions on gender equality, offering insights into the complexities of gender identities and experiences.

By examining diverse perspectives and voices in literature, attendees gained a deeper understanding of gender issues and learned to appreciate the importance of empathy and sensitivity in interpreting and responding to gender-related themes.

In conclusion, the seminar underscored the transformative potential of literature in promoting gender sensitivity and fostering dialogue on gender equality. By incorporating gender analysis into literary studies, we can contribute to creating more inclusive and equitable societies.
