A Report on Women Equality Rights

Name of the event –Women Equality Rights

Date of the event- 25-02-2023

The resource person -B. Vijetha, advocate

Name of the organisation- Women's Cell

The Women's cell of the college has conducted a lecture on “Women Equality Rights” on 25th February 2023. The resource person is **B. Vijetha, advocate.**

Dr. Y. Vasundhara, Convener –Women's Cell has invited Vijetha.

Vijetha addressed the gathering and spoke on the following points.

- Violence against women
- What are the roadblocks in improving the status of women in India?
(This is one of the questions given in UPSC)
- What made the inequality?
- When Aryans arrived in India, they divided the society depending on the nature of work such as Brahmins, Kshatriyas, vyshyas (came from the upper part of brahma). According to the ritualistic situation the women status came down, in the prevedic period women used to get the equal priority.
- We need to bring the attitudinal change to get equality. Status cannot be given by somebody it must be created by yourself. You should build an aura that no one can raise their voice.
- Principal K. Jhansi Rani Madam spoke about the mental strength helping yourself, your soul will not lie to you. Students also interacted on the above topics.
- The vote of thanks was given by Pragna of B.A (EPP) Final year.

The guest lecture on HPV, HPV Vaccine, and Cervical Cancer was both enlightening and impactful. The speaker for lecture was warmly welcomed to the online session by Dr. K. Jhansi Rani, Principal, Head of the Departments, and students. Our respected principal addressed all the viewers who were attending the online session.

The speaker provided a comprehensive overview of Human Papillomavirus (HPV), emphasizing its role as the primary cause of cervical cancer and its association with other cancers.

Attendees gained insight into the importance of HPV vaccination as a preventive measure against HPV infection and cervical cancer. The lecture highlighted the safety and efficacy of the HPV vaccine in reducing the risk of HPV-related diseases, including cervical cancer.

Furthermore, the speaker discussed the significance of regular cervical cancer screening, such as Pap tests and HPV tests, for early detection and treatment.
