Plastic Waste Cleaning Campaign Organized by NSS Units of AMSASCW

Date: 21 September 2023

Location: Campus Surroundings, AMSASCW

Organized by: NSS Units of AMSASCW

Introduction:

On 21 September 2023, the NSS (National Service Scheme) units of AMSASCW orchestrated a plastic waste cleaning campaign as a part of the Clean India Drive initiative. This campaign aimed to address the environmental issue of plastic pollution while raising awareness about its detrimental effects on our ecosystem.

Objective:

The primary objective of this campaign was to actively engage students in cleaning up plastic waste from the campus surroundings, thereby contributing to a cleaner and greener environment. Additionally, the campaign sought to educate participants and the wider community about the adverse impacts of plastic usage.

Activities:

Under the guidance of NSS coordinators and faculty members, 22 students enthusiastically participated in the campaign. Prior to the event, thorough planning was undertaken to ensure the safety and well-being of all participants amidst the ongoing COVID-19 pandemic. Necessary precautions such as wearing masks, maintaining physical distancing, and sanitizing hands were strictly adhered to throughout the duration of the campaign.

The students embarked on the cleaning drive equipped with gloves, garbage bags, and other necessary cleaning tools. They systematically combed through the campus surroundings, meticulously collecting plastic waste littered across various areas. While cleaning, the participants engaged in discussions and shared their perspectives on the adverse effects of plastic pollution on the environment, wildlife, and human health.

Additionally, the campaign included informative sessions where students delivered speeches and presentations highlighting the importance of reducing plastic usage and adopting sustainable alternatives. These sessions aimed to educate not only the participants but also the wider student body and faculty members about the pressing need to address the plastic waste crisis.

Outcomes:

The plastic waste cleaning campaign proved to be a resounding success, with the active participation of 22 students who demonstrated commendable enthusiasm and commitment towards environmental conservation. The campus surroundings were visibly cleaner post-campaign, reflecting the positive impact of collective efforts in tackling plastic pollution.

Furthermore, the campaign succeeded in raising awareness about the detrimental effects of plastic usage among the student community, fostering a sense of responsibility towards environmental stewardship. The informative sessions facilitated meaningful discussions and encouraged students to contemplate their individual roles in mitigating plastic pollution and promoting sustainability.

Conclusion:

The plastic waste cleaning campaign organized by the NSS units of AMSASCW underscored the significance of collective action in addressing environmental challenges. Through active participation and advocacy, the campaign not only contributed to a cleaner campus environment but also instilled a sense of environmental consciousness among the participants.
