

**Andhra Mahila Sabha
Arts & science College for Women**

**Report
Medical Camp held on 21st February 2025**

In Collaboration with Genome Foundation

On 21st February 2025, the college successfully hosted a Medical Camp in collaboration with the Genome Foundation. The event began with an inauguration ceremony led by Sri D. Chakrapani, Chairman; Dr. Karuna Devi, Principal; Dr. Y. Vasundara, Vice Principal; Dr. Pramila, IQAC Coordinator; Dr. Sridevi, Health Club Convenor; Dr. G.V.V.S. Kanakabhushanam, Gynecologist; Dr. Kosaraju Rajeshwar Rao, Skin Specialist; Dr. Kriti Sharma, Dentist; and Dr. Monisha, Dentist. Mrs. P. Sandhya Rani, Mrs. Sravani, and Mrs. Ruchitha from Andhra Mahila Sabha College were the primary organizers from the college.

The event was carried out with the invaluable support of Dr. G.V.V.S. Kanakabhushanam, Dr. Kosaraju Rajeshwar Rao, Dr. Kriti Sharma, and Dr. Monisha. The camp's coordination was managed by Dr. Sneha, Alanka Ketan Kumar, Vadlamani Swathi, Naresh Kanna, and Ahmed Pasha. Dr. Sandhya Assistant Professor from Osmania University Research Advisory from Genome Foundation have activity taken part.

The registration process for the camp began two days earlier, on 19th February 2025. As part of the initial screening, female students completed a questionnaire to assess their existing health conditions and symptoms. Despite the short notice, over 300 students registered for the camp including the sister institution of AMS. Following the preliminary screening, students were invited for their health check-up on 21st February.

The check-up included basic health assessments such as blood pressure, SpO2 levels, BPM, weight, and height.

- Dr. Kanakabhushanam conducted general health check-ups and provided guidance on PCOD/PCOS concerns.
- Dr. Rajeshwar Rao managed cases related to allergies.
- Dr. Kriti Sharma and Dr. Monisha specialized in dental hygiene.

Over 100 students attended the camp, completing a comprehensive proforma that included their medical history, family history, menstrual history, nativity, and other health concerns. Based on the primary evaluations, some students were advised to undergo additional tests, including CBP, TSH, Free T4, Serum Vitamin D3, Serum Vitamin B12, and Serum Prolactin. Supplements were also suggested according to individual needs.

The students were also informed about the health packages available through the Genome Foundation Integrative Wellness Clinic. Ms. Sandhya Faculty from AMS briefed on the packages, and the offer was made to send a phlebotomist to the AMS campus for sample collection if a group of students were interested in getting their tests done.

The majority of students who attended the camp were found to have conditions such as hypothyroidism, PCOD, PCOS, skin allergies, and dental issues, including cavities.

The camp received immense praise from the college management and staff, who emphasized the importance of such initiatives for female students and expressed a keen interest in organizing similar events in the future.
