

### B.A. Programme Objectives (POs)

- ❖ To provide a broad foundation in humanities and social sciences, enabling students to understand and analyze human society, culture, and behavior.
- ❖ To develop critical and analytical thinking that helps students evaluate social, political, historical, and economic issues with logical reasoning.
- ❖ To enhance communication skills — oral, written, and interpersonal — for effective expression, discussion, and presentation of ideas.
- ❖ To promote ethical values, social responsibility, and civic awareness, encouraging students to become responsible and informed citizens.
- ❖ To cultivate research aptitude and intellectual curiosity, preparing students for higher studies and independent learning.
- ❖ To build employability and leadership skills through exposure to practical knowledge, social interaction, and real-world problem-solving.
- ❖ To encourage interdisciplinary learning that broadens perspectives and fosters appreciation of cultural and intellectual diversity.
- ❖ To empower students to contribute positively to society through careers in education, public service, media, administration, or entrepreneurship.

#### **PO 1: Knowledge Application**

Students will acquire and apply knowledge of humanities and social sciences to understand human behavior, society, culture, and environment in local, national, and global contexts.

#### **PO 2: Critical Thinking and Problem Solving**

Students will develop critical and analytical thinking skills to identify, analyze, and provide reasoned solutions to contemporary social, political, economic, and cultural issues.

#### **PO 3: Effective Communication**

Students will demonstrate proficiency in oral and written communication, presentation, and interpersonal skills necessary for academic, professional, and social engagement.

#### **PO 4: Research and Inquiry Skills**

Students will develop the ability to design, conduct, and interpret research studies, enhancing their capacity for independent and lifelong learning.

### **PO 5: Ethical and Social Responsibility**

Students will demonstrate awareness of ethical principles, social justice, gender sensitivity, and environmental sustainability in both personal and professional life.

### **PO 6: Teamwork and Leadership**

Students will be able to work collaboratively in diverse teams, exhibiting leadership qualities, initiative, and respect for others' perspectives.

### **PO 7: Lifelong Learning and Adaptability**

Students will recognize the need for continuous learning and skill development to adapt to the changing socio-economic and technological environment.

### **PO 8: Employability and Entrepreneurship**

Students will acquire the knowledge, values, and competencies necessary for employment, entrepreneurship, and community service in various fields.

### **B.A. Programme Specific Outcomes (PSOs)**

#### **PSO 1: Disciplinary Knowledge**

Students will acquire a sound understanding of fundamental concepts, theories, and methodologies in their chosen disciplines within the humanities and social sciences.

#### **PSO 2: Interdisciplinary Perspective**

Students will develop the ability to connect knowledge across disciplines such as history, political science, economics, literature, sociology, and public administration to gain a holistic understanding of society.

#### **PSO 3: Analytical and Interpretative Skills**

Students will be able to analyze texts, events, and social processes using critical reasoning and interpretative skills grounded in scholarly and empirical approaches.

#### **PSO 4: Research Competence**

Students will gain the ability to formulate research questions, collect and interpret data, and present findings effectively using appropriate academic and digital tools.
