## REPORT

### **Educational Visit to Shamirpet Deer Park, Shamirpet Lake**

The Departments of Zoology organized an educational field visit to Shamirpet Deer Park, Shamirpet Lake on 23rd December 2025, to provide practical exposure and enhance the field-based learning experience of students.

The field visit arranged for the B.Sc (BZC AND BtZC) students. 29 students along with four faculty members attended the visit, G. Ruchita, Nanda Kulkarni were the faculty members.

The first destination was Shamirpet Deer Park, where students observed the natural habitat of deer. The park offered an opportunity to understand wildlife conservation, forest ecosystem, and the importance of protecting natural habitats.

After the Deer Park visit, the group proceeded to Shamirpet Lake, also known as Pedda Cheruvu, a well-known artificial lake located near Hyderabad. The lake serves as an important water body supporting biodiversity and groundwater recharge. Students learned about the ecological significance of lakes and their role in maintaining environmental balance.

The field visit was highly educational and provided valuable exposure to Ecosystem of different organisms and plants .
